

Board Model

Slab Calibration Sheet

This is the calibration sheet for a Slab Hardware Board

V1.0 (1/4/2019)

Board Number

Date	Operator	N ADC	Comments

The board Model is the MCU Demonstration board model, like "STM32F303RE Nucleo64" Board number enables to differentiate two similar boards. Use one sticker for that if it is not already on the board.

Date is the date of the calibration

Operator is the person performing the calibration

N ADC is the number of calibrated ADC channels

Comments shall be "Ok" if there is nothing special to indicate
